1992 TOBACCO YEAR IN REVIEW

South Carolina tobacco producers experienced an up-and-down year during the 1992 season.

Producer sales for the 26 warehouses on seven markets amounted to 103,749,368 pounds for \$176,296,687.86 and an average per one hundred pounds of \$169.93.

Markets for the South Carolina and Border North Carolina belt opened July 20 and closed Oct. 19 with 51 sales days for 12 sets of buyers.

The summer of 1992, according to South Carolina weather officials, was cooler and wetter than usual. Depending on what part of the tobacco growing Pee Dee area was discussed, the season was assessed differently. Weather conditions varied from one extreme to another with few sections experiencing ideal conditions. South Carolina growers, despite these adverse conditions, produced a very good, usable crop.

The Tobacco Division of the U.S. Department of Agriculture Agricultural Marketing Service noted: "The overall total volume and value of the 1992 crop of tobacco on the belt were below 1991 levels. Grade averages were lower than the previous year in the early season. Increases occurred in mid-season as upper stalk tobacco reached warehouse floors. Quality and maturity improved a little over '91 and loan receipts increased.

"The highest weekly average of \$182.48 was set during the ninth week of sales. The daily high of \$183.31 took place on Sept. 8. The top bid for the year was \$190 per hundred pounds.

"Overall composition of marketing was better with the percentage of good and fair quality tobacco increasing on auction floors as low and poor decreased.

"Flue-Cured Stabilization Corporation receipts for the season on the belt amounted to 267,102,830 pounds or 13.9 percent of net sales. This total compared to 1991 figures of 9,551,000 pounds or 5.0 percent under loan."
